

Are you working with these ingredients?

- Acesulfame K
- Aspartame
- Caffeine
- Calcium
- Casienates
- Citric Acid
- Dairy Powders
- Flavor Concentrates
- Fructose
- Guar Gum
- Maltodextrin
- Minerals
- Natural Sweeteners
- Pectins
- Preservatives
- SHMP
- Soy Proteins
- Sucrose
- Taurine
- Tea Powders
- Vitamins
- Whey Proteins
- Xanthan Gum

Do you manufacture these products?

- Carbonated Drinks
- Sport Drinks
- Flavored Milk
- Nutraceuticals
- Vegetable/Fruit Juices
- Flavored Water
- Tea
- Enriched Water
- Bar Mixes
- Energy Drinks
- Protein Drinks
- Drink Bases, Syrups, Concentrates

Are these problems affecting your operation?

- Slow Batch Times
- Lumps, Clumps, "Fisheyes"
- Clogged Strainers
- Inconsistent Powder Incorporation
- Tough to Disperse Ingredients
- Dust
- Air Entrainment
- Operator Injuries from Dumping Powders
- More Powders to Disperse into Less Water

MIXING TECHNOLOGY FOR YOUR TOUGHEST CHALLENGES

Employee Owned ... Customer Focused

Admix, the leader in advanced mixing technology, provides high speed *in-tank*, *in-line*, and *powder induction* solutions designed to help our **beverage** clients make products faster, better, cheaper, and safer.

We offer mixing solutions to your beverage process challenges:

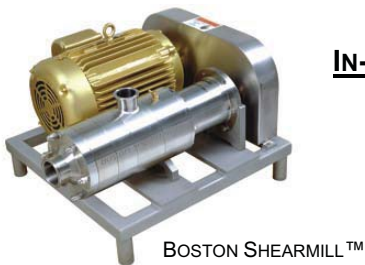

- Eliminate multiple, time-consuming premix dissolutions
- Add powders and liquids from the safety of floor level
- Induct and disperse gums on single pass with no recirculation loop
- Reduce batch times by 50%
- Eliminate batch inconsistencies
- Create continuous in-line emulsions
- Reduce dust
- Induct and disperse powders directly from super sacks
- Eliminate high pressure homogenizers
- Reduce energy
- Induct and disperse up to 70% solids on a single pass

Admix manufactures mixers in compliance with 3-A Third Party Verification (TPV) standards.

IN-TANK BATCH PROCESSING

- **Rotosolver**[®] High shear dispersers
- **Rotomixx**[®] Sanitary portable mixers
- **Rotomaxx**[™] High-torque, right angle mixers

IN-LINE MIXING & MILLING

- **DynaShear**[®] In-line high shear mixer
- **Boston Shearmill**[™] In-line high shear mill
- **Admixer**[™] Sanitary in-line static mixer

POWDER INDUCTION

- **Fastfeed**[®] Powder Induction & Dispersion System

Call **800-466-2369** for more information or to schedule **testing** in our state-of-the-art **pilot lab**. Ask about our **in-plant trial program** and **process assurance warranty**.
