

Are you working with these ingredients?

- Tomatoes
- Tomato Paste
- Peppers
- Tomato concentrate
- Spices
- Vegetables

Do you manufacture these products?

- Tomato Paste
- Pizza Sauce
- Tomato Juice
- Barbeque Sauce
- Ketchup
- Vegetable Juice
- Salsa
- Chili
- Soups
- Marinara Sauce

Are these problems affecting your operation?

- High Cost for Fine Paste
- Inconsistent standardization
- Long processing times
- Wasting Valuable Nutrients in Pomace
- Clogged Depositors
- Product Lost to Pomace
- Unsightly Skin and Seed Particles
- Poor Bostwick Readings
- Inconsistent Product Quality
- Variable Percent Solids
- Cleaning and CIP Issues
- Syneresis
- Low Paste Content
- Inconsistent Brix
- Grainy Texture
- Poor Sheen

MIXING TECHNOLOGY FOR YOUR TOUGHEST CHALLENGES

Employee Owned ... Customer Focused

Admix, a leader in advanced mixing technology since 1989, provides sanitary high shear mixers and agitators for both in-tank and in-line processes.

We offer mixing solutions for your Tomato applications:

- **PASTE CUTTING** – Standardize paste to a completely homogenous mixture in under 5 minutes. No more lumps of unmixed paste.
- **PASTE REFINING** – Mill inexpensive coarser pastes to .045 or better and save money on every batch
- **BOOST VISCOSITY**– Make a thicker product or add back water to reduce costs without sacrificing quality
- **REWORK POMACE** – Use it instead of throwing it away
- **SPICE ADDITION** – Spice addition and dilution without clumps
- **HOMOGENOUS CONSISTENCY** – from small to large batches provide desired consistency and Bostwick with less cooking, preserving flavors and beneficial attributes like Lycopene
- **IMPROVE FINISH** - Finish milling and working particles from skins releasing pectin, fiber and other nutrients that provide a richer, thicker, shinier product
- **SANITARY** - Our mixers are available in all stainless steel, with no paint to chip and peel

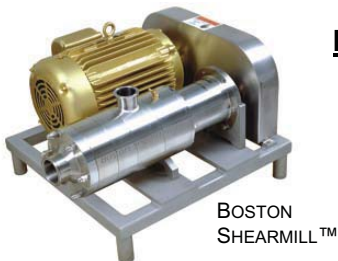

Admix manufactures mixes in compliance with 3-A Third Party Verification (TPV) standards.

IN-TANK BATCH PROCESSING

- **Rotosolver**[®] High shear dispersers
- **Rotomixx**[®] Sanitary portable mixers
- **Rotomaxx**[™] High-torque, right angle mixers

ROTOSOLVER[®]

BOSTON
SHEARMILL[™]

IN-LINE MIXING & MILLING

- **DynaShear**[®] In-line high shear mixer.
- **Boston Shearmill**[™] In-line high shear mill
- **Admixer**[™] Sanitary in-line static mixer

FASTFEED[®]

POWDER INDUCTION

- **Fastfeed**[®] Powder Induction & Dispersion System

Call **800-466-2369** for more information or to schedule **testing** in our state-of-the-art **lab**. Ask about our **trial program** and **process assurance warranty**.
